Senior UI/UX Designer | Graphic Designer | Web Designer

Ahmedabad, Gujarat, India | darshangohil1205@gmail.com | +91 96017 35001 | darshan-gohil-5b6325412

PROFESSIONAL SUMMARY

UI/UX, Graphic & Web Designer with 3+ years of experience designing modern websites, enterprise ERP systems, SaaS platforms, dashboards, e-commerce applications, and mobile apps. Skilled at translating complex business requirements into intuitive, user-centric products using Figma — covering wireframing, user flows, prototyping, responsive design, and design systems. Strong working knowledge of HTML, CSS, Bootstrap, and JavaScript enables close collaboration with development teams.

CORE COMPETENCIES

UI/UX Design: User Research, Wireframing, Prototyping, User Flows, Information Architecture, Responsive & Mobile App Design, Dashboard & SaaS Product Design, Design Systems, Component Libraries

Frontend Development: HTML5, CSS3, Bootstrap 5, JavaScript, Figma-to-HTML, PSD-to-HTML, Responsive Development

Design Tools: Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator, CorelDRAW

PROFESSIONAL EXPERIENCE

Senior UI/UX Designer | Web Designer — Atharv Technolabs Pvt. Ltd.

Ahmedabad, Gujarat | 3+ Years

- Designed responsive websites, enterprise web apps, ERP systems, SaaS products, and mobile applications end-to-end.
- Created wireframes, user journeys, and low- to high-fidelity UI designs; built scalable design systems and reusable UI components.
- Delivered dashboards and platforms across CRM, ERP, healthcare, education, hospitality, and e-commerce domains.
- Partnered with Business Analysts, Project Managers, developers, and clients throughout the product lifecycle, converting requirements into user-friendly interfaces.
- Delivered developer-ready Figma files with responsive layouts and component specs; built production-ready HTML/CSS pages.
- Designed festival posts, social creatives, promotional banners, and brand campaign graphics using CorelDRAW and Photoshop.

FEATURED PROJECTS

Mopedo — Ride Booking Application (similar to Rapido)

- Designed a complete ride-booking platform with dedicated User App, Driver App, and Admin Dashboard modules enabling instant/scheduled bike bookings, real-time driver tracking, and secure payments.
- Owned end-to-end UX: user research, wireframing, user flows, mobile UI design, design system, interactive prototyping, and developer handoff.

BM Mall — E-Commerce Ecosystem

- Designed a Customer App, Delivery Partner App, and Admin Dashboard covering product catalog, cart, checkout, BM Coin wallet, order tracking, coupons, referral program, and delivery management.

Hospital Management System (HMS)

- Designed a complete hospital ERP with modules for Admin, Reception, Doctors, Nurses, Laboratory, Pharmacy, Billing, HR, and a Patient Portal, including dashboards, user flows, and a shared design system.

MindVex LMS ERP

- Designed a multi-institution SaaS ERP for schools and colleges with Super Admin, Institution Admin, Teacher, Student, and Parent portals covering attendance, exams, fees, assignments, timetable, and analytics.

Health Products E-Commerce with Binary MLM

- Designed a Customer App and Agent Portal with wallet system, earnings dashboard, binary tree, genealogy, rewards, and admin payout management.

Additional Enterprise Platforms

- Hospitality & Canteen Management — Employee App, Guest House Management, Transport Management, Vendor & Admin Dashboards.
- Local Store Management ERP — POS Billing, Inventory, Supplier Management, Accounts, Customer Loyalty, Reports & Analytics.
- Attendance Management System — Employee Dashboard, Calendar View, Leave Management, Attendance Reports, Admin Panel.
- Society Management System — Resident Portal, Society Admin, Parking, Visitor Management, Complaint Management, Maintenance Billing.

Corporate Website Projects

- Designed and developed responsive corporate websites for Suvridha Consultancy, Rare Flow Valves, Sab Natural, Madhav Foods Products, Jal Tarang Water Park, Fun City Water Park, Kinex Water Park, Wright Investors, Courier Bazaar, and LBR Marketing.
- Responsibilities included website UI design, responsive layouts, landing pages, banner design, and HTML/CSS/Bootstrap development with cross-browser compatibility.

KEY ACHIEVEMENTS

- Successfully delivered multiple ERP and SaaS platforms across healthcare, education, hospitality, retail, MLM, and society management domains.
- Built reusable design systems and UI component libraries adopted across projects.
- Collaborated with cross-functional teams to deliver usable, scalable enterprise applications and dashboards.
